U-CRANE TELESCOPIC

The Filmotechnic U-CRANE Telescopic offers adjustable reach from 13ft-20ft. NO build out or re-rig required, we can go full extension with the push of a joystick. It's capable of lifting large camera packages and VFX arrays weighing up to 110lbs with various Flight Heads. Secured to our Mercedes ML63 arm car that provides comfort, performance, precision and speed, making this the ultimate chase car for pursuit and chase filming. The U-CRANE Telescopic is based out of Chicago Illinois.
